

## **Request for Letter of Recommendation for Masters Application in MSc Interaction Technology from University of Twente**

**Dear Ms. Leo Rama Kristina, S.T., M.T.,**

I hope this letter finds you well.

This is **Ezra Ravin Mateus**, your former student & alumni from **Institut Teknologi Harapan Bangsa**. I was in the Technopreneurship course where you supervised my startup team with **Heal ID**, and we managed to secure 2nd place during the final pitch and advance to secure Top 50 in the Indonesia DigitHeal IDal Tribe national competition.

I am writing to you today with an exciting update and a humble request. I am applying for the MSc in Interaction Technology at the University of Twente in the Netherlands. This program deeply aligns with the entrepreneurial spirit you helped foster, focusing on how technology can be designed to create meaningful user impact.

It would be an immense honor to have you as one of my referees. Your guidance during the Technopreneurship course was invaluable in teaching me how to translate a problem into a viable solution. I believe your perspective on my ability to lead a team, identify user needs, and execute a project under pressure would be incredibly powerful for my application.

To make the process as convenient as possible for you, I have prepared a package of materials that includes:

1. [My Current Curriculum Vitae \(CV\)](#)
2. [My Statement of Purpose/Motivation Letter](#)
3. [My Academic Transcript](#)
4. [A brief guideline for the program](#)
5. [A draft template for the letter, which you are free to use, edit, or ignore as you see fit.](#)
6. [Guide for drafting the recommendation letter.](#)

The application deadline is **31 December 2025**. Would it be possible for you to confirm if you are willing and have the time to support my application?

Thank you so much for your time, and for the inspiring mentorship during the course at ITHB.

**Note: Only one recommendation letter is needed for all purposes.**
