

Request for Letter of Recommendation for Masters Application in MSc Interaction Technology from University of Twente

Dear Mr. Dyan Raditya Helmi,

I hope this letter finds you well.

This is Ezra Ravin Mateus, a former participant from **Sekolah Beta Intensif & NetX (May 2024 - July 2024) at Markas Bandung**. I was in the **Hustler, Hipster, and Hacker track** where you also supervised my learning progress and startup team with **WeFlect ID**, and we managed to secure the winner title for our final pitch and advance to the Top 12 startups exhibiting for Bandung Startup Pitching Day at Institut Teknologi Bandung.

I am writing to you today with an exciting update and a humble request. I am applying for the **MSc in Interaction Technology at the University of Twente in the Netherlands**. The philosophy of this program resonates deeply with the "Hustler, Hipster, Hacker" methodology we practiced — specifically, my passion for building the bridge between user-centric design and robust engineering.

It would be an immense honor to have you as one of my referees. Your guidance and the environment you created at Markas Bandung were invaluable. I believe your perspective on my growth during the program, my execution skills under a tight timeline, and my ability to build and pitch a winning product would provide a powerful, real-world validation of my capabilities to the admissions committee.

To make the process as convenient as possible for you, I have prepared a package of materials that includes:

1. [My Current Curriculum Vitae \(CV\)](#)
2. [My Statement of Purpose/Motivation Letter](#)
3. [My Academic Transcript](#)
4. [A brief guideline for the program](#)
5. [A draft template for the letter, which you are free to use, edit, or ignore as you see fit.](#)
6. [Guide for drafting the recommendation letter.](#)

The application deadline is December 2025. Would it be possible for you to confirm if you are willing and have the time to support my application?

Thank you so much for your time and for the incredible opportunity and mentorship during **Sekolah Beta Intensif & NetX**.

Note: Only one recommendation letter is needed for all purposes.

Should you lose access to this letter,
please visit rodeon33.com/request/helmi thank you.

I look forward to hearing from you.

Warm regards,

Ezra Ravin Mateus
