

Request for Letter of Recommendation for Masters Application in MSc Interaction Technology from University of Twente

Dear Mr. Yaby,

I hope this letter finds you well.

This is Ezra Ravin Mateus, a former participant from **Sekolah Beta Intensif & NetX (May 2024 - July 2024) in Markas Bandung**. I was in the **Hustler, Hipster, and Hacker** track where you directly supervised my learning progress and startup team with **WeFlect ID**, leading us to become the winners of the final pitch and advance to become the top 12 startup exhibiting in Bandung Startup Pitching Day in Institut Teknologi Bandung.

I am writing to you today with an exciting update and a humble request. I am applying for the **MSc in Interaction Technology at the University of Twente in the Netherlands**. This program is the perfect next step to deepen the interdisciplinary skills I honed under your supervision, particularly in connecting user experience design with technical implementation.

It would be an immense honor to have you as one of my referees. Your direct mentorship and feedback during the program were crucial to my rapid iteration and growth. I believe your perspective on my coachability, my agile approach to product development, and my ability to synthesize feedback across different domains would be a unique and strong testament to my readiness for a rigorous master's program.

To make the process as convenient as possible for you, I have prepared a package of materials that includes:

1. [My Current Curriculum Vitae \(CV\)](#)
2. [My Statement of Purpose/Motivation Letter](#)
3. [My Academic Transcript](#)
4. [A brief guideline for the program](#)
5. [A draft template for the letter, which you are free to use, edit, or ignore as you see fit.](#)
6. [Guide for drafting the recommendation letter.](#)

The application deadline is December 2025. Would it be possible for you to confirm if you are willing and have the time to support my application?

Thank you so much for your time and for your dedicated guidance during my time at **Sekolah Beta Intensif & NetX.**

Note: Only one recommendation letter is needed for all purposes.

Should you lose access to this letter,
please visit rodeon33.com/request/yaby thank you.

I look forward to hearing from you.

Warm regards,

Ezra Ravin Mateus
